Le nostre procedure HACCP tengono conto del rischio di contaminazione crociata ed il nostro personale è addestrato per occuparsi di tale rischio. Tuttavia, occorre segnalare che in alcuni casi, a causa di esigenze oggettive, le attività di preparazione e somministrazione di alimenti e bevande possono comportare la condivisione di aree ed utensili (ad esempio nella zona buffet). Quindi, non si può escludere la possibilità che i prodotti alimentari entrino in contatto con altri prodotti alimentari, compresi altri allergeni. // Our HACCP procedures take into account the cross-contamination risk and our staff is trained to deal with this risk. Nevertheless, it should be pointed out that in some cases, due to objective needs, the preparation and service operations of food and beverages may involve some shared areas and utensils (eg in the buffet area). So, the possibility that food has come into contact with other food products, including other allergens, can not be excluded.
